Denmark

June 2, 2009

Dear Mr. Hansen,

It was very nice to see you again in Denmark. I was so impressed or even deeply moved by the Houting Project, as well as mudflat restoration in Wadden Sea. The Houting Project is truly astonishing in terms of its scale and contents. I believe the Project will serve as wonderful habitats for wildlife including houtings and will contribute largely to build a sustainable society. We will spread your efforts whenever we have found an opportunity.

I hope we will keep in touch with each other and exchange information further by all means. If there are any other nature restoration projects planned or commenced please let us know. We will come and see them. And please come to Japan again. We hope we will have another opportunity to invite you for a conference.

Thank you again and best wishes for your continuing progress in the future.

Sincerely yours,

Hobun Ikeya
President,
Ecosystem Conservation Society-Japan
